Email Address		Phone Number	

**To the Health Care Provider,**

We would like to thank you for your care and treatment of our colleague and ask that you partner with us by completing the information below in order for us to process our employee's request to return to work.

This employee has job functions at our company that could affect the employee's safety, that of their co-workers or the public. The safety of our employees and customers is a priority for our company, the Federal Aviation Administration (FAA), Department of Transportation (DOT) and Occupational Safety and Health Administration (OSHA).

The essential functions and required physical demands of an **Inspector** below, although not a comprehensive inventory of all essential functions and required physical demands, indicate the general nature and level of work performed by employees within this job classification. The failure to perform these functions properly may result in serious injury to passengers, employees, and ground equipment and company aircraft damage.

**Treating Health Care Provider:**

In order to evaluate our employee's request to return to work, and/or safely return our employee back to work, please review each job function and physical demand listed below. If our employee has a restriction(s) applicable to any of the functions or demands listed, please explain the restriction(s) on page 2 of this form.

- Ability to sit, stand and walk for prolonged periods of time
- Ability to work at heights in excess of 60 feet off the ground while wearing safety harness
- Work in a high noise environment
- Routinely engage in tasks related to bending, stooping, crawling, pushing, pulling, reaching, lifting
- Visually inspect parts, units, assemblies, sections and systems from a sitting, standing, bending, squatting or overhead position
- Distinguish all colors
- Read and interpret printed or computerized maintenance manuals
- Possess cognitive skills to verify air worthiness of aircraft engines, structures, systems and their components after assembly, disassembly, repair or installation has been completed
- Work in confined spaces including fuel tanks and aircraft belly areas; wearing Personal Protective Equipment (PPE) may be required
- Works around dust, jet fumes and other chemicals
- Work well under stress in a safety and deadline driven environment
- This employee is subject to Department of Transportation (DOT) drug and alcohol testing

**I understand the essential job functions and physical demands listed above. I certify that I am the treating healthcare provider for this employee's recent absence from work.**

**I confirm my patient is currently able to return to work without restrictions. Return to Work date:** \_\_\_\_\_
